Nothing is beyond the realm of possibilities, especially when it comes to the young people of today. Comments from Audience

Mr. Kyle Wise, 2319 Warrensville Center Road and a student in his senior at John Carroll University. Mr. Wise stated that John Carroll University is an integral part of the University Heights community and many of the students live in off-campus housing. Mr. Wise also noted that he felt it was extremely important to students and the community that the students and John Carroll work with the resident of University Heights to coexist in such a way that families can raise their children in a safe and pleasant environment. Mr. Wise noted his belief that both John Carroll and University Heights could benefit from a program which would provide the residents with a contact person at the JCU to call in the event of complaints for the conduct of JCU students while using off-campus housing that way residents would not have to call the University Heights Police Department, which could possibility damage a student's future.

Mr. Coyne noted that Mr. Wise's suggestions would require an Ordinance and that once students are off the premises of the University persons are bound by the laws of the State of Ohio and the laws of the City of University Heights. Mr. Coyne noted that there are diversion/first offender programs.
