Bathroom Remodel

Required Application Information

- Floor plan drawn to scale showing existing conditions and proposed changes. Plan must include dimensions, electrical outlets, lights and switches.
- Dimensions must include ceiling height.
- Window location(s) must be included in the plan.
- Show the location of all fixtures which would include tub, toilet, vanity, shower etc.
- Include any walls being removed or added and materials to be used. Also indicate if the walls are load bearing.
- Details of framing if structural alterations are proposed.
- Show outside walls as insulated: indicate R-value.
- Three sets of plans are required for both residential and commercial projects.

Below is a sample drawing of a bathroom.
